## Eliminate the Waste and Improve Efficiency

### with Guest Speaker Tony Castiglione

**Topic Description** - Continuous Improvement is to strive for Perfection realizing you will never get there.

Tony will help identify 7 forms of waste in your process and some basic tools to decrease and/or eliminate them. He will share some simple tools that you can implement with your teams the very next day and start to create a culture of continuous improvement throughout your organization.

**Tony  
Castiglione**

**Bio** - Continuous Improvement is a Journey rather than a destination. Tony has used many aspects of Lean manufacturing and Six Sigma, not only in his own businesses, but has help many organizations over the past 20 years to become more efficient and productive. Let him show you how you can use some very simple tools to eliminate waste and variation in your daily projects. Tony is passionate about implementing change in an organization that adds value.
